DETAILED ACTION

Response to Amendment

The amendment filed 10/21/05 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: Applicant is now requiring the recording of information.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Alam (602).

Alam discloses Vocabulary Building Game Cards.

Art Unit: 3711

Regarding claims 1-3

Alam teaches a vocabulary building exercise using words (see abstract and claim 1), lesser-known words in the form of definitions and root words (see col. 4, lines 1-21) and a means for scoring in the form of a scoring system (col. 4, lines 63 - 67).

Alternatively:

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Mankoff et al. (651).

Mankoff discloses Vocabulary playing cards.

Regarding claims 1-3

Mankoff teaches vocabulary building cards with words and definitions, which are used to decipher the vocabulary word (see abstract, claim 1 and col. 2, lines 29-68). Mankoff further teaches means for marking (scoring) values for the cards during game play (see claim 5).

Response to Arguments

Applicant's arguments filed 10/21/05 have been fully considered but they are not persuasive for the 35 USC 102 rejection of the previous office action. Applicant has amended claims 1-3 to include new matter. Examiner has not considered the new matter of these amendments.

Applicant submits that the results of premarketing studies can be used as evidence that the method of play increases the student's vocabulary. Examiner will accept this argument and has withdrawn the 35 USC 101 rejection.

Applicant further argues that the cited references disclose games. Examiner agrees that the references disclose games, however, these games are conducted using methods that overcome the limitations, as written, of the present invention. Applicant seems to trying to claim the mental process of an individual or solutions based on a person's knowledge. Examiner would like to point out that Mankoff teaches vocabulary building cards with words and definitions, which are used to decipher the vocabulary word (see abstract, claim 1 and col. 2, lines 29-68). The act of deciphering utilizes one's existing knowledge base whether it is vocabulary or evaluation.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and are cited to show the state of art with respect to features of the claimed invention.
